

# No Storage Space?

**GO DRUMLESS!**

## SolidTEK™ SOLID DETERGENT TECHNOLOGY

Our innovative system, The **Perpetual Drum**, dissolves solid detergent into a drum reservoir, which then feeds directly into the washer. Say goodbye to the handling large drums!

Our system is operated by a programmable logic controller that displays the current chemical levels as well as provides other valuable insights into the sanitation cycles.

### BENEFITS OF GOING SOLID:

#### IMPROVES WORKPLACE ERGONOMICS

Eliminates the hassle for your employees to move bulky drums and 2000 lb. pallets resulting in improved workplace ergonomics.

#### INCREASED STORAGE

Large chemical drums and bulk tanks occupy a large amount of surface area. The transition to capsules affords more storage space in your facility.

#### MORE ECOFRIENDLY

Eliminating large drums significantly decreases the amount of plastic being disposed and reduces the fossil fuels needed to create the plastic and transport the drums.
